The Armenian Village Aid, Inc. is a non profit organization dedicated to help poor villages in Armenia.

AVA is a Christian organization that follows the biblical command (Matthew 25:31-46) to help those in need. The focus is to help villages in Armenia through various relief and development projects. The volunteers each year travel to Armenia to implement a project such as renovating a church, or a medical clinic and building a kindergarten. Our latest project was the establishment of a kindergarten in the village of Vahgni which opened its doors this year. AVA depends upon the support of caring individuals or foundations. Together we can save villages in Armenia.

If you cannot attend the luncheon and would like to donate here are a few ways to support:
